Diamond Technologies joins the discoverIE Group

Hudson MA,
May 3, 2024

It is with great pleasure that we announce that Diamond Technologies has been acquired by Beacon EmbeddedWorks of Eden Prairie MN and has become a part the discoverIE Group of companies. The acquisition of Diamond as part of the Beacon north American cluster will allow Diamond to continue its expansion and innovative focus for our OEM customer base.

We have grown significantly over the last several years, expanded our presence in many geographical areas, and continued to strengthen our focus in the lab instrumentation, and medical device market space. discoverIE brings some 4,700 colleagues in 20 countries with significant experience in customized customer solutions. Through our new sister company Beacon EmbeddedWorks, Diamond will have access to an ISO 9001, ISO 13485, 9100:16 Registered, and FDA 21 CFR 820 manufacturing partner.

We are excited to join the Beacon team and discoverIE organization. The influx of resources will allow Diamond Technologies to broaden our OEM solutions and innovation to provide our customers with further competitive advantages.

Diamond will continue to operate under the Diamond Technologies name at our Hudson MA facility.

Diamond Technologies specializes in customized designs and engineering solutions for Data Collection, Automation, and Industrial Communications. Since 1997 Diamond Technologies has employed and utilized a team of specialized engineers to be able to work directly with customers to design, install, and service customized solutions for their specific and challenging needs.

Beacon EmbeddedWorks, a discoverIE Group company, was created to build on Logic PD's 20-year history of developing cutting-edge SOMs and embedded electronics with new product lines and expanded capabilities. Beacon EmbeddedWorks' comprehensive approach brings together an award-winning development and manufacturing team of engineers to deliver powerful technology and unwavering quality. Beacon EmbeddedWorks partners with its customers, exceeding expectations with SOMs that are powerful, compact, secure, and customizable.

discoverIE Group, listed on the London Stock Exchange and a constituent of the FTSE250, is an international group of businesses that designs and manufactures customized electronic components for industrial applications. The discoverIE group of over 20 businesses creates innovative electronics that make a difference to the planet and people's lives.
